

DODGERS SPLIT EVEN IN BARGAIN PROGRAM

Pirates Outfit and Outplay
Mitchell's Men—Giants
Beat Phillies

[Republican A. P. Leased Wire]

BOSTON, June 25.—Boston and Brooklyn divided a double header, Brooklyn taking the first. Good support for Cadore in the pinches, Fillingim's wildness and timely hitting gave the visitors the opener. In the second game Scott allowed only five hits. Cruise's outfielding and batting and Ford's hitting, which was responsible for three runs, assisted in Boston's victory. Score:

PIRATES OUTCLASS CUBS
PITTSBURG, June 25.—Pittsburg defeated Chicago, due mainly to ability to pole out long hits off Hendrix. Carey stole home with the run that put the Pirates in the lead and they never were headed after the third. Cooper was hit early in the game, but tightened after the third. He also led in the attacks on Hendrix with a single and a triple, scoring two runs. Score:

Glendale Comes For
Return Battle With
Tigers Sunday A. M.

The much touted Glendale baseball team will be guests at Eastlake park Sunday morning in a return game with Manager Castle's Phoenix Tigers. The game will be called at 10:30 o'clock.

In the first game between these teams at Glendale two weeks ago, the Tigers nosed out a victory in 11 innings of sensational play. Brawner was on the mound for the Tigers on that occasion and pitched brilliant ball opposed to Miller, the Glendale sensation.

Miller is scheduled to be on the firing line for Glendale Sunday morning. This youngster is touted as the best hurler in Arizona, and his record on the coast this spring bears out this claim. He won 16 or 17 games against coast colleges and universities and made a new knockout record, being credited with 22 victims in a 9-inning game.

Manager Castle has not yet decided which of his moundmen will get the nomination for Sunday morning.

CAFE FOR PINOCCHIO PLAYERS
(New York Evening Sun)

There is a cafe just below the Harlem line where only pinocchio players eat. From 6 to 8 o'clock evenings more than 100 tables are set with food which cannot be equaled anywhere in the big town. Then as soon as coffees have been drunk and napkins crumpled up and laid aside cards begin to take the places of knives and forks and the greatest convention of pinocchio players in the world under one room is seen holding its evening session. Prior to dinner there had been an afternoon session.

This cafe holds its patrons from year to year. Many of them are retired business men who make the cafe their headquarters, because there they can always find a good game of pinocchio. In fact, it has no attraction except as a headquarters for pinocchio players who also like to eat. For although it is called a cafe, liquor never was served there, and it is situated one floor above the street where transients would not be likely to be attracted.

Newly Japanese soldiers are expert gymnasts and every barracks has a gymnasium.

NEWLY WEDS TO TENTS
A honeymoon colony, believed to be the first of its kind in England, has been established in a meadow near Farnham, Surrey. At the edge of a certain wood half a dozen tents may be seen. They are the homes of the four brides and their husbands who, rendered homeless by the house shortage, have begun their married life in the open air.

The colony is likely to be still further enlarged, for several other couples have applied for admission.—London Mail.

FRENCH FAMILY HEIRESSSES

NEW YORK—Whether pursued by a hoodoo, cursed by a fretful family strain, or merely the victims of unhappy coincidence, the French family is running up a weird record for calamitous marriages.

A social position less lofty and stable than this family holds would have been swept away long since by the succession of ruined marriages.

Now it is Pauline LeRoy French Wagstaff who has filed suit at New York for divorce from Samuel J. Wagstaff. Pauline French, in 1903, read a paper entitled, "Man, the Obsolete," before the Electric club in Delmonico's. She married Wagstaff, however, in 1908.

Julia French, sister of Pauline, eloped with Jack Geraghty, a handsome chauffeur. They tried the sim-

HARVARD OARSMEN BEAT BULLDOGS IN SPECTACULAR RACE

NEW LONDON, Conn., June 25.—Leading from the initial dip of their oars, Harvard's varsity crew defeated Yale in a spectacular four-mile race of the fifty-second inter-varsity regatta today by nearly six lengths, thus completely wiping out the sting of the double victory of their Blue rivals in the two preliminary races.

Rowing in magnificent form from the start of the long upstream battle, the oarsmen coached by Bill Haines early demonstrated their superiority both in blade work and stamina and went across between the finish flags in 23 minutes and 11 seconds after the starting signal, while their ancient Yale rivals trailed in 35 seconds later in a state of physical exhaustion.

C. Peters of Seattle, the Yale stroke and captain, who it is reported was still suffering from the effects of a recent illness, collapsed in the last eighth mile and three dropped in oar.

B. G. Driscoll also went down at the finish, while the remainder of the eight had difficulty in sitting erect.

The Crimson crowds tonight were celebrating the conquest in part as a vindication of the American rowing system, as opposed by the English methods adopted by Yale.

The victory of the Harvard eight came as more or less of a surprise, for Yale was a favorite at odds of 1 to 7 in the little betting that was done.

Tonight the Crimson cohorts are collectively singing the praises of their American coach, the Harvard crew, and particularly Stroke Jenney, the lightest towsman who ever stroked a Harvard crew over the four-mile course.

Both crews started on the long row at 5:16 p. m.

MAY RUN SPECIAL
TRAIN TO PRESCOTT

A special train to Prescott for Frontier Day, July 2 to 5, may be run from Phoenix, the Phoenix chamber of commerce announced yesterday, as a result of a request from the Yavapai county chamber of commerce that such be done if possible. The Santa Fe advises that a large number of people will go to Prescott for the celebration, but leaves the matter of a special train open for decision. A chamber of commerce committee now is considering the proposal and asks that those favoring an excursion to telephone the chamber of commerce so that public sentiment may be heard.

In the letter from the Prescott chamber is this paragraph: "Let us suggest that if possible you organize an excursion of 25 chambers of commerce to Prescott for the Frontier Days. You have two splendid days, Sunday, the 4th, and Monday, the 5th. The summer rates are in effect."

SOUNDS LIKE HASHEMURA'S WORK
Rule 2 for motorists in Japan runs as follows: "When a passenger or the foot heave in sight tootle the horn trumpet to him melodiously at first. If he still obstacles your passage tootle him with vigor and express by word of mouth the warning: 'Hi! Hi!'"

Representatives at the conference expressed themselves as believing the plan will provide necessary finance until a normal buying market asserts itself.

After acceptance of such a draft bearing endorsement of member bank it is eligible for re discount or purchase by the federal reserve bank, provided it has maturity of not more than three months from date of re-discount or purchase.

The federal reserve act authorizes any member bank to accept drafts secured in this manner at the time of acceptance, provided that the draft matures in not more than six months from the time of acceptance.

Following a wire from M. O. Eldridge, director of roads of the American Automobile association, in which the state highway bill for Arizona is strongly endorsed, comes a letter received by the Arizona Good Roads association yesterday. In this letter Mr. Eldridge elaborates upon his telegram. Following are excerpts from the letter:

"I've read over these measures very carefully and find that the principles involved correspond to those for which this association stands.

"A plan for providing a 2-mill tax levied on all property in the state which is placed to the credit of the state highway fund is another wise policy.

"One of the most important sections of your highway bill is that which provides for the appointment of a commission with such a tenure of office as will insure continuity of policy regardless of any political changes that may take place in the state. It is also wise to leave the selection of the state highway engineer to the selection of the state highway commission and to provide that his tenure of office shall be subject to the will of the commission.

"The plan of having a system of state roads selected, constructed and maintained and paid for by the state is most progressive and desirable. Sooner or later all the states will adopt a similar plan. The most progressive states have already adopted it, including New York, New Jersey, Pennsylvania, Maryland, California, Ohio, Illinois and Virginia.

"For these and other reasons I am glad to endorse your initiative measures and I believe that if they are thoroughly understood throughout the state that they will receive the endorsement of every progressive citizen. You may be assured that this association will be glad to do everything possible to assist and promote your good roads campaign."

PLAN TO FINANCE
WOOL GROWING LAID

A plan has been adopted to finance the wool growing industry until "normal buying conditions are resumed," according to Washington advices received by the Phoenix chamber of commerce yesterday. The plan is the result of a conference of wool growers, bankers and others interested in the wool trade with the federal reserve board.

The reserve board decided that wool growers may ship wool to their usual points with drafts secured by the bill of lading against his bank for such amount as agreed upon between the grower and the bank.

After acceptance of such a draft bearing endorsement of member bank it is eligible for re discount or purchase by the federal reserve bank, provided it has maturity of not more than three months from date of re-discount or purchase.
